### Finished Basement

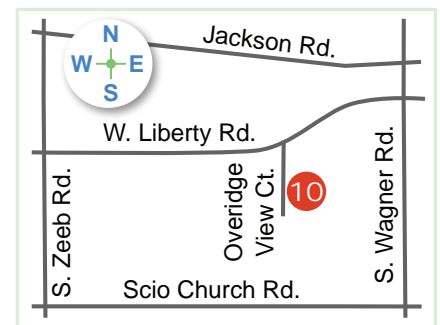

#### About the Project

Once a blank slate begging to become usable space, this basement was transformed into a spacious family room for entertainment including television and games, a guest room with full bath, and a dream craft room. The attention to detail and continuity of elements from the upstairs have made this an integral part of their home. The basement is now their favorite space in the house!

#### About the Remodeler

Experienced tradesmen you can trust! We understand you want to make smart renovations while improving the beauty, enjoyment and value of your home. We have built our reputation by taking excellent care of our clients while guiding projects from design to completion on budget and on time. Let Haig Construction's talented group of tradesmen take care of all the important details that make certain your project goes smoothly and is built right.
