### Home Addition with Kitchen Remodel

#### About the Project

Our clients loved their home, but hated the small, dark, outdated kitchen, which lacked work space and discouraged communication. Working within a tight budget, Alpha's solution added only 209 square feet, but doubles the cabinet and countertop space, opens to the living areas promoting family togetherness, and looks like it has always been part of the original home. The fresh, bright kitchen features large windows, maple cabinetry, granite and impressive tile accents. Let Alpha show you how your dream is closer than you think!

#### About the Remodeler

Alpha Remodeling combines architectural design, product selection, interior design and construction into a one-stop experience. Alpha's full design showroom allows clients to make selections in one location, saving time and money. Great service, creativity, knowledge and craftsmanship are what you can expect. Many national awards, 19 years in business, and over 1,100 completed projects tell you that Alpha has the experience needed for your remodeling challenges.

From Main St. go west on Scio Church Rd. Next, turn left onto Chaucer Dr., then turn right on Wembley Ct.
