

Basement Finish

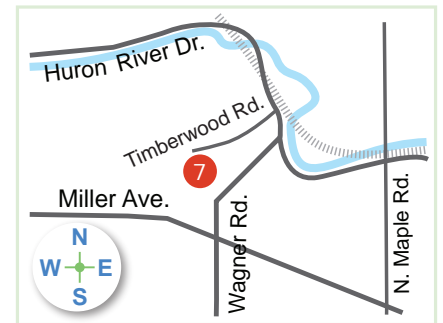

Kitchen Remodel

About the Project

In times like these, when financing large projects may be difficult, we thought you'd enjoy seeing an extensive makeover done more affordably. From new floor...to new front door – remodeling of this home was accomplished in a series of small steps. Nearly every year since installing oak flooring in 1995, we've been invited back for project after project. From finished basement, to remodeled kitchen featuring granite countertops and glass backsplash, we have touched most every room. Projects (some not on tour) included complete repainting, bathroom remodeling, deck finishing, gas log fireplace, new generator, landscape assistance, and more.

About the Remodeler

Since 1973 Acheson Builders has been bringing renowned expertise, problem solving skills, and tasteful architectural assistance to every project. We enjoy the challenge of solving design, budget and technical building issues, and servicing customers with integrity and care. Our ongoing commitment to excellence is the reason why customers refer us to friends and associates time after time!

North on Wagner, left on W. Huron River Dr., 1/10 mile, left on Timberwood, east of the railroad tracks.
