KITCHEN REMODEL WITH CUSTOM CABINETRY AND PATIO ACCESS

Photos by Liz Brauer

Address

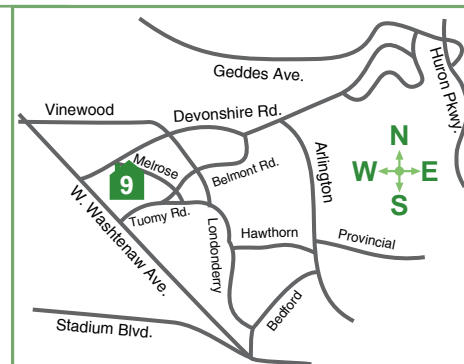

2122 Melrose Road, Ann Arbor

The Project

This kitchen went from dull and boring to warm and charming! The homeowners were ready to trade their white cabinets, countertops and walls for a space that was true to the era of the home. With a well thought out design plan, they were ready to take the plunge and update their kitchen. We installed custom cabinetry featuring an inset door style, exotic granite countertops, natural stone tile backsplash, and architectural details that reflect the mid 20th century style of the home. The function of the space was further improved by reworking the windows and doors to provide more natural light and access to the lovely patio.

The Remodeler

Michigan Building Specialties has provided professional Design/Build services for 57 years. Our approach to remodeling involves working closely with our clients, understanding their needs, and adhering to their budget. We transform that information into a comprehensive design and fixed price. Ultimately, our goal is to create a space the client will enjoy for many years to come. Ask any of our 30,000 previous clients!

From Washtenaw Ave. turn onto Devonshire heading northeast. Turn right onto Melrose, the house is on the right.
